## The Program

Our program is non-traditional and heavily experiential with a student-centered focus. Students learn to build community and develop decision-making practices in order to develop their learning community, learning agenda, and outcomes.

## PROGRAM ALUMNI INFORMATION

The program focuses on training practitioners. Graduates from the program are typically employed in government, education, healthcare, consulting and the nonprofit and for-profit sectors.

## Community Psychology Faculty and Research Interests

- Anti-oppressive education and therapy
- LGBTQIA+ therapy
- Self-care
- Immigration and refugees
